EPEE attends AHRI Annual Meeting

On 17-19 November the Director General of EPEE Andrea Voigt attended the Annual Meeting of the Air-Conditioning, Heating, & Refrigeration Institute (AHRI) in Florida.

More than 600 AHRI members attended the event and were eager to hear from EPEE about the latest developments in the EU, particularly concerning the F-gas review and ecodesign.

EPEE's participation at the event helped further strengthen our ties to other related associations across the Atlantic and bolster cooperation across the global industry.

For more information on AHRI see www.ari.org.
