

Anticipate legislation

- ▶ We promote a better understanding of the HVACR sector among decision-makers in the EU.
- ▶ We provide our members with up-to-date and timely political intelligence
- ▶ We organise meetings with key EU policymakers in the European Commission, European Parliament, and the Member States.

“Early, accurate and well-informed analysis of EU Commission & Parliament actions likely to impact our industry.”

Heating and cooling
is your life and our mission

About EPEE

The European partnership for Energy and the Environment (EPEE) is a broad based HVACR industry association supporting the promotion of energy efficiency and the freedom of refrigerant choice. It is composed of more than 45 member companies and associations

- ▶ producing a/c equipment, components, refrigeration systems, heat pumps, refrigerants
- ▶ employing more than 200,000 people in Europe
- ▶ and realising a turnover of more than €30 billion in Europe

EPEE members also create indirect employment through a vast network of small and medium-sized enterprises such as contractors who install, who service and maintain our equipment.

For more information, please visit our website : www.epeeglobal.org

Our main fields of activity

Promote Energy & Resource Efficiency

- ▶ 2030 Climate & Energy targets
- ▶ Ecodesign & Energy labelling
- ▶ Energy Efficiency Directive, Energy Performance of Buildings Directive, Renewable Energies Directive
- ▶ Circular Economy Strategy

Promote the responsible management of refrigerants

- ▶ Make the new F-Gas rules work
- ▶ Support EU Commission and Member States in implementing the new rules
- ▶ Support global action to reduce consumption of HFCs

Raise awareness on Market Surveillance

- ▶ Importance of properly enforcing and policing legislation

Promote an HVACR association network at EU level

Heating and cooling
is your life and our mission

90% of legislation impacting your business is made in Brussels

EPEE Members act on EU legislation – and you ?

Join EPEE

the voice of the HVACR industry needs to be heard loud and clear in Brussels

The European Partnership for Energy and the Environment (EPEE) is the voice of the refrigeration, air-conditioning and heat pump industry in Europe.

- Anticipate future political developments and gain the ultimate competitive edge.
- Shape the future of our industry sector taking into account your technological potential
- Network with industry leaders and political leaders in Europe and in the world.
- Keep up to date about EU political developments to take well informed, efficient investment decisions in your company.

Shape the future

- We focus on key issues for our industry such as ecodesign, energy efficiency, refrigerants, renewable technologies, market surveillance...
- We represent our members at global climate change meetings to advocate for feasible and responsible global agreements.
- We raise awareness on the contribution that the heating and cooling industry can make to move to an energy efficient, low-carbon and renewable future.

"Building a solid public understanding and good image of HVACR systems by explaining the environmental and societal benefits."

Show the way

- Participate directly in formulating EPEE's policy and strategy via our working groups, position papers, meetings with policy makers...
- Profile your organisation by meeting with EU decision-makers, participating in a wide range of industry-focused events, trade fairs, conferences...
- Network with EPEE members and in various European coalitions, such as the HVACR Forum, the Coalition for Energy Savings...

"EPEE positions are made by its members for its members in a democratic, honest and balanced way."
